

## Big Time

Play the “Big Time Game” to make waiting time fly by. Hold up an object—a magazine, an item from a bag, a toy. Ask your child, “Can you find something bigger than this?” After he/she does, then ask, “Can you find something smaller than this?”

### **Brainy Background Powered by Mind in the Making**

When you take turns posing questions, this game becomes a back and forth conversation about size. It provides a chance for your child to focus on and explore the idea of size – a concept he/she can use to organize his/her understanding of the world.
